Year 1/2 Questacon Science Show – ‘Engineering is Elementary’

This term the students in year 1/2 have been investigating how technology has changed over the years and how digital technology assists us in our daily lives. Students have been using the new STEM Room to write simple programs using iPads, Chromebooks, Bee Bots and Sphero. During science and design technologies, students have been exploring how toys use push and pull forces and will use this knowledge to design their own toy. The ‘Engineering is Elementary’ science show presented by the Excited Particles from Questacon is designed to encourage students to see the values inherent in STEM and to envision themselves as potential engineers.
